An employment in the civil services is much more than an average white-collar job. In fact, the Civil Services offer a unique career opportunity combined with constructive challenges and high growth prospects. By getting into the Civil Services, you will not only be associated with the decision-makers and implementer of policies & programmes but you will also be a crucial contributor as policy maker to the development of the nation as a whole. The decision to join the civil services is not that of going for yet another lucrative job for livelihood. In fact, it is an opportunity to serve the country. Moreover, the varied nature of assignments attached with the services gives an opportunity for the maximum utilization of one's potential.

**PREPARING FOR THE CIVIL SERVICES EXAMINATION**

The first step towards your success is to choose your goal honestly. You shouldn't choose anything just because your parent has a dream or a pressure from your social circle. It should be and come from your heart and once you have decided upon your choice, stick to your choice and face the hurdles, if any comes your way. This preparation gives us an opportunity to know ourselves better, to assess our strengths and weaknesses, and to be a better person every day. This is also the time you lay foundation for your career in the civil services. It's a chance to compete with yourself and deliver the best out of yourself.

"Stand up, be bold and take the whole responsibility on your shoulders and know that you are the creator of your own destiny. All the strength and success that you want are within yourself"

“Arise awake and rest not till the goal is achieved.” - Swami Vivekananda

Our philosophy at Classic IAS Academy remains focused on these lines

“What to read is very important but what not to read is more important”

“This exam is not tough, it’s very easy, but a little hard work is required”
